Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 2 and 7 is withdrawn in view of the newly discovered reference(s) to US 2005/0105399 to Strumpf et al. [hereinafter Strumpf]. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1, 3, 5, 6, 8, 10 rejected under 35 U.S.C. 102(e) as being anticipated by Strumpf.
Regarding claim 1: Strumpf discloses an electronic equipment system comprising a

remote controller (202) for transmitting a remote control signal containing identical first and second command signals [0029] and a time data signal subsequent to the first and second command signals; and an electronic equipment (100) for receiving the remote control signal to correct time information, said electronic equipment comprising determining means [0039] for determining whether to carry out a time correction based on the remote control signal, said determining means determining, when the second command signal is received in order to carry out the time correction [0039 -0042], and, when the second command signal is not received in order, not to carry out the time correction [0039-0042].

Regarding claim 3: Strumpf discloses the electronic equipment system according to claim 1, wherein said electronic equipment has a first mode of carrying out no time correction and a second mode carrying out the time correction, and said determining means determines, when the first mode is active, not to carry out the time correction, and, when the second mode is active, whether to carry out the time correction based on whether the second command signal is received in order [0039-0042].

Regarding claim 5: Strumpf discloses the electronic equipment system according to claim 1, wherein said electronic equipment can be one of many things, e.g., video camera [0016].

With respect to claims 6, 8 and 10: the method steps will be met during the normal operation of the device stated above.
